Dear Applicant

Re: MMF Metis Harvester Identification Card Application Form

This package contains the following:

1. Attention Metis Harvesters – A Message from the Manitoba Metis Federation;
2. MMF Metis Harvester Identification Card Application Form Instructions;
3. Harvesting Quick Reference Guide; and
4. MMF Metis Harvester Identification Card Application Form.

In the September 2003 Supreme Court of Canada *Powley* decision, the Court stated the need to develop an “objectively verifiable process” to identify Metis Harvesters. A Metis Harvester, as a Metis rights holder, must:

1. *Self-identify as Metis:* The application for MMF Metis Harvester Identification Card provides an objectively verifiable way of self-identifying as a Metis. The application process, and subsequent issuance of cards, protects our Metis rights by preventing non-Metis from wrongly claiming and abusing our rights;
2. *Show an ancestral connection to the Historic Metis Community:* Most MMF members will already have had a Metis genealogy (family tree with supporting documents attached) completed when they applied for their MMF card. In order to objectively verify an ancestral connection, current MMF members and new applicants of the MMF Harvester Identification Card must submit a copy of their own, or a family member’s, Metis genealogy along with their application form;
3. *Be accepted by the contemporary Metis Community:* An objectively verifiable means of showing acceptance by today’s Manitoba Metis Community is to have the MMF, as the duly elected self-government representative of the Metis Nation within Manitoba, issue you a MMF Metis Harvester Identification Card through the application process.

In order to meet this “objectively verifiable process,” this package contains the application form that will help the MMF identify you as a Metis Harvester. We also include excerpts of text of an earlier article in the Grassroots News that is intended to provide background about the Metis Harvesting Initiative, including the MMF Metis Harvester Identification Cards.

Should you have any questions or concerns, please contact your Regional Office, or the MMF Home Office Natural Resources Portfolio Staff at (204) 586-8474. Thank you.

Yours truly,

Ken Leforte
MMF Natural Resources Portfolio Chair

ATTENTION METIS HARVESTERS

A Message from the Manitoba Metis Federation:

Moving Forward:

The Supreme Court of Canada's September 19, 2003 *Powley* decision recognized our Metis right to harvest for food. Before this decision, in anticipation of our recognition, the Manitoba Metis Federation was working on a Metis Harvesting Initiative to implement our Constitutional Section 35 rights to hunt, fish, and trap for food.

In 2001, the Manitoba Metis Federation appointed the Commission on the Metis Laws of the Hunt, which held workshops across Manitoba speaking to approximately 1,000 Metis people. Over 2,000 delegates at the 2002 Annual General Assembly ratified the Commission's report.

Since the September 2003 Supreme Court decision, the Manitoba Metis Federation has hosted a Metis Elders Conference and held over three dozen workshops throughout the province. The clear message heard from the Metis people is that we have the Metis right to harvest for food, as members of our Metis Nation and our Manitoba Metis Community.

Meeting Our Responsibilities:

The Metis people, both before and after the *Powley* decision, have stated clearly that with our Metis right to harvest for food come responsibilities to our environment, our wildlife, and our fish resources. The Metis have also said that we also have obligations to our community as well as to our children, grandchildren, and great grandchildren. The Metis have said, and continue to say, that conservation is a priority.

Protecting Our Rights:

To protect our rights, and to meet our responsibilities and obligations, the Metis people have identified four principle objectives to guide the implementation of our Section 35 rights and the MMF Metis Harvesting Initiative. These are:

1. ***Metis Harvester Identification Cards.*** These cards will identify Metis harvesters and prevent the fraudulent abuse of our Metis harvesting rights by non-Metis;
2. ***Metis Conservation Trust Fund.*** A trust fund will be created to raise and distribute funds to be used for local and regional Metis-directed conservation initiatives and to support and safeguard our 35 rights;
3. ***Metis Management System.*** The commitment to a Metis-developed management system recognizing Metis rights and Metis jurisdiction. Management would include a harvest recording process;
4. ***Metis Laws of the Harvest.*** Our Ancestors had our own unwritten and written rules such as the "Laws of the Buffalo Hunt." The Metis people want Metis-made common-sense rules to protect our rights and resources such as bag limits and restrictions during calving and spawning periods.

Following the direction given by the Metis people, and using a step-by-step process, the Manitoba Metis Federation is continuing to put in place our people's Metis Harvesting Initiative based on these four principle objectives.

Practicing Our Rights with MMF Metis Harvester Identification Cards:

The Metis people have said there needs to be a Metis Harvester Identification Card and application process to ensure that only the Metis are practicing our Metis right to harvest for food. The card will identify Metis harvesters of fish, geese, ducks, game birds, wild turkey, big game, and other mammals, as well as wild rice and firewood gathering for family-use.

The card and application process is intended to protect our right. The card will prevent non-Metis from wrongly abusing our right to harvest for food. The card has security features to prevent copying and fraudulent use, and to protect the identity of the Metis Harvester. The card is intended to be a permanent card that will be validated each year.

Metis card holders practicing our Metis right to harvest for food, while following the interim Metis Laws of the Harvest, will receive protection and support from the Manitoba Metis Federation if charged by government for an infraction other than those concerning health, safety and other conservation laws.

Getting Your Application Form for a Metis Harvester Identification Card:

Application forms for Metis Harvester Identification Cards will be available at the Home Office, Regional Offices, and from Local Executives.

There will be a \$10 application-processing fee to cover the manufacturing-related costs of the card. There are no administration fees. The applicant must be a resident of Manitoba. As part of the application, the applicant will be required to submit two colour passport photos. The applicant will also need to provide a genealogy, and supporting documents as necessary, to show his or her ancestral connection to the Historic Metis Nation. Supporting documents may include scrip, census records, church records, and others.

One genealogy is required per family. If the genealogy does not show the applicant's name, the applicant must show his or her connection to the person whose name is on the genealogy. This connection can be shown, for instance, by using long-form birth certificates or baptismal certificates.

If you intend to apply for a Metis Harvester Identification Card for the upcoming harvest, and do not as yet have a genealogy, we suggest that you obtain one right away as there may be a waiting period.

Giving Back to Nature with the Metis Conservation Trust Fund:

The Metis people have also said that there needs to be a way "to give back" to nature, protect our environment, and ensure there are strong wildlife and fish populations, and ample habitat, for future generations. There must be re-investment into our resources.

The Metis have recommended that a Metis Conservation Trust Fund be created to raise and distribute the financial resources necessary to support initiatives aimed at "giving back" and

protecting our rights. Some possible examples of initiatives that may be supported by the Trust Fund include hiring our youth to repair fish spawning beds, protecting and enhancing wildlife and fish habitat, fish hatcheries, feeding deer during harsh winters, youth environmental and traditional land use education, and recording our Elders' traditional ecological knowledge.

Guided by the advice of our Elders, the Manitoba Metis Federation has accepted the recommendation that there be a yearly contribution to the Metis Conservation Trust Fund by each harvester. As suggested, this will be a small annual contribution of \$25 to the Trust Fund to ensure wildlife and fisheries resources remain available. A dated sticker will be affixed to the Metis Harvester Identification Card showing the harvester's contribution to the Trust Fund. The sticker will validate the Metis Harvester Identification Card for that operational year.

An individual's overall purchases of Federal and Provincial Government harvesting licenses and related stamps can cost in excess of \$400. The Metis have said our harvesting rights are not subject to purchasing licences and stamps from the Government. The Metis Conservation Trust Fund sticker will cover all harvests during the year with no requirement to purchase licenses and stamps from Manitoba or Canada. The fund may be used to assist in legal costs incurred in the protection of our Metis rights if Metis harvesters, in practicing their rights, are pursued as criminals by the Province.

The Strength of the Metis Harvesting Initiative:

The strength of the Metis people's approach is that it is flexible and will continue to develop in response to the Metis experience. The Metis Harvesting Initiative is based on Metis traditions and knowledge. It recognizes our people's distinct and unique needs while acknowledging our aspirations.

Through consultative workshops and other forums, the Metis people have given, and will continue to give, our leadership direction towards implementing our Section 35 right to harvest for food. This is the Metis people's system based on the values and principles of the Metis Nation within Manitoba.

For More Information:

Please contact the Natural Resources Portfolio Staff at the Manitoba Metis Federation Home Office in Winnipeg at 204-586-8474.

Also, please listen to the *Metis Hour x 2* on NCI, and look for more announcements in *Le Metis*, Grassroots News, and other media. Or, visit the Manitoba Metis Federation Website @mmf.mb.ca where background documents regarding Metis harvesting are online.

MMF Metis Harvester Identification Card Application Form Instructions:

These instructions may change.

1. The Manitoba Metis Federation (MMF) Metis Harvester Identification Card is available through an application process;
2. The use of the card is subject to the MMF policies and procedures governing its use, the Interim Metis Laws of the Harvest and Provincial and Federal health and safety regulations;
3. Applicants must be Metis, of Historic Metis Nation Ancestry, and Manitoba residents;
4. Each applicant must use the four-page MMF Metis Harvester Identification Card Application Form. All questions should be answered with ink in the spaces provided. If space provided is insufficient, please attach writing paper with additional answers;
5. Subject to the attached *Harvesting Quick Reference Guide*, adult Metis harvesters, 18 years and older, harvesting fish, big-game, small-game, game-bird (upland, migratory, wild turkey), wild rice and firewood, must be in possession of a validated Metis Harvester Identification Card. This Card must be validated annually for the period from August 1st through to July 31st. For validation, the Card must be affixed with the Metis Conservation Trust Fund Sticker for the applicable period;
6. In addition to the MMF Metis Harvester Identification Card and Metis Conservation Trust Sticker, hunting of big game requires the appropriate management tags for reporting and conservation purposes;
7. Subject to the attached *Harvesting Quick Reference Guide*, Metis harvesters 12 years to 17 years old, harvesting fish, big-game, small-game, game-bird (upland, migratory, wild turkey), wild rice and firewood, must be in possession of a validated Metis Harvester Identification Card, but will not be required to buy a Metis Conservation Trust Fund Sticker. These child cards will be considered valid. Additionally, Metis children 12 years to 17 years old harvesting big-game are required to have the appropriate management tags for reporting and conservation purposes.
8. Each applicant must provide and attach a copy of his or her own long-form birth certificate and/or baptismal certificate, a copy of his or her own Metis genealogy, or a family member's with supporting documents, showing that he or she is Metis and is of Historic Metis Nation Ancestry. This requirement is required of all applicants whether or not the applicant has already received an MMF Membership Card;
9. If the applicant does not have a copy of his or her own genealogy with supporting documents, and if a family member's Metis genealogy with supporting documents are to be used, the applicant must provide a copy of either a long-form birth certificate(s), and/or baptismal certificate(s), or other papers, showing the applicant's direct connection to the family member whose Metis genealogy is being used;
10. The supporting documents accompanying the genealogy are intended to show the applicant's Historic Metis Nation Ancestry by demonstrating an ancestor's membership in the Historic Metis Nation. These supporting documents may include: Half-Breed Scrip Documents (affidavits, index, etc); 1870 Census Records; 1901 Census Records; and other documents such as Church records, government papers, journals, newspaper clippings, etc.

11. If neither the applicant nor their family has had a genealogy done, then the Applicant should get a genealogy completed through either the:

St. Boniface Historical Society
340 Provencher Blvd. Wpg. MB.
63 Albert Street, Wpg. MB. or R2H 0G7
R3B 1G4 Telephone: 233-4888
Telephone: 956-7767

12. Once the Metis genealogy and supporting documents are complete, the completed application form, a copy of the applicant's long-form birth certificate and/or baptismal certificate, a copy of the Metis genealogy and supporting documents, and two coloured passport photos of the applicant, must be brought to the Local Chair in which the applicant is a voting member, or if not a voting member, brought to the Local Chair for the area in which the applicant resides, for an authorizing signature;
13. Where a Local is deemed by the Regional Executive to be inactive, a local signing authority may be designated by the Regional Vice-President;
14. The Local Chair, or Local Executive designate, will check the application to certify that it is complete. The Local Chair, or the Local Executive designated for the task, will then sign the application on behalf of the Local, and initial the applicant's Metis genealogy, supporting documentation, and passport photos;
15. Once the Local Chair, or the Local Executive designate, signs the application and initials the documents, the applicant, or the Local Chair or designate, will submit the signed application, Metis genealogy, supporting documentation, passport photos, and processing fee to the Regional Office for processing;
16. The applicant must include with his or her application the \$10 processing fee for the current manufacturing related costs of the MMF Metis Harvester Identification Card, payable as a cheque or money order payable to the 'Manitoba Metis Federation'. The Card is intended to be a permanent Card and does not need to be renewed unless lost or damaged;
17. Upon submission, it is estimated that it may take approximately 2 weeks to process the application and have the card available at the Regional Office for pick-up;
18. Subject to the *Harvesting Quick Reference Guide*, the Card is validated on a yearly basis with a small annual contribution to the Metis Conservation Trust Fund. The current contribution has been set at \$25, payable as a cheque or money order to the 'Metis Conservation Trust Fund'. Upon contribution to the Trust, a numbered and dated Metis Conservation Trust Fund Sticker will be issued to the Cardholder and is to be affixed to the back of the Card. If you intend to harvest fish, big-game, small-game, game-bird (upland, migratory, wild turkey), wild rice and firewood please make your contribution at the same time you submit your application for the Card;
19. In addition to the possession of a validated MMF Metis Harvester Identification Card, Metis Harvesters of big game must use big game tags. These tags are intended for wildlife management recording purposes. These tags are available from your Regional Office;
20. Further information packages will be available at the time of your card pickup. Or contact the MMF Natural Resources Portfolio Staff at 204-586-8474.

HARVESTING QUICK REFERENCE GUIDE

Revised March 27, 2007

This reference guide is intended to help the Metis Harvester identify what requirements must be met if he or she intends to harvest various resources on the land. The left hand column is used to identify the resource to be harvested. This guide may change. You will notice an 18 years or older line and an 17 years or younger line. Choose the applicable line and move to the boxes to the right to determine the requirements needed to harvest. For example, if you are over 18 and want to harvest deer, you would look under big-game and follow the 18 and older row and would determine that you require an MMF Metis Harvester Identification Card, a Metis Conservation Trust Sticker, and a Management Tag or Tags.

IF I HARVEST...	DO I NEED?...			
	MMF Metis Harvester Identification Card	Metis Conservation Trust Fund Sticker	Management Tags ⁹	Adult accompaniment ₁

And I am 16 to 17 years old	No	No ¹¹	No	No
And I am 12 to 15 years old	No	No ¹¹	No	Yes

¹ All harvesting is subject to, and harvesters must meet the requirements of, all federal and provincial health and safety regulations. For harvesting requiring firearms or bows, or for activities involving potentially hazardous conditions, or exposing the harvester to risk or possible harm, adult accompaniment is recommended. The adult must meet all his or her adult requirements for the resource being harvested.

² Moose, elk, barren-ground caribou, woodland caribou, white-tailed deer, mule deer, black bear and gray wolf.

³ All other animals not listed in footnotes #2 or #7.

⁴ Ruffed grouse, gray partridge, wild turkey, rock ptarmigan, willow ptarmigan, spruce grouse, sharp-tailed grouse and ring-necked pheasant.

⁵ Ducks, geese, coots and snipe, sandhill cranes.

⁶ Artic char, artic grayling, black crappie, brook trout, channel catfish, goldeye, mooneye, lake trout, muskellunge, northern pike, rock bass, smallmouth bass, largemouth bass, brook trout, brown trout, rainbow trout, walleye, white bass, whitefish, yellow perch, and freshwater mussels, and other species.

⁷ Beaver, short-tailed weasel, long-tailed weasel, coyote, fisher, artic fox, red fox, river otter, badger, bobcat, marten, mink, muskrat, red squirrel, wolverine, raccoon, lynx.

⁸ Firewood and wild rice are for own use and not for sale. Gathering of berries and plants does not require any cards, stickers or tags.

⁹ Tags required for big-game reporting and conservation purposes. Other species-specific reporting to be used.

¹⁰ Youth 12 to 17 years old require card. Children 11 years or younger but do not require Metis Harvester ID card. Children should be accompanied by adult at all times.

¹¹ Metis Harvester Identification Card will be considered validated without a sticker for those 12 to 17 years of age.
